

THE QAB BOARD

The Second Scoreboard: quality at-bats are the process your players actually control.

WHAT COUNTS AS A QUALITY AT-BAT (Lock your program's definition before the season. Never change it mid-season.)

- Hard contact, regardless of result. The barrel caught on the track counts.
- A battle of six or more pitches, regardless of result.
- A walk or hit-by-pitch.
- Advancing a runner with fewer than two outs. Any executed bunt or hit-and-run.
- A sacrifice fly or any at-bat that executed the situation.
- A base hit of any kind.

QAB% = quality at-bats divided by plate appearances. Track it. Post it. Celebrate the leader like the batting champ.
The box score ranks the lucky flare above the barreled lineout. This board doesn't.
